**Day 2** - Visit the **Shearers Hall of Fame in** Hay and learn of the rich life in the wool industry in early NSW. We travel the western plains to enter the ancient lakes areas of the Murray River to **Mungo National Park.** See evidence of giant wombats (Diprotodon), Tassie Tigers and Australia's megafauna who roamed this ancient land. Enjoy **sunset over Lake Mungo** as we relax with the local kangaroos at our camp or photograph some great sunset shots over the lake. BLD

Mungo National Park is a part of the Willandra Lakes World Heritage Area, a chain of dried-out lakes that were once strung between Willandra Creek and the main channel of the Lachlan River in Outback NSW. Lake Mungo dried up around 14,000 years ago, and today a great crescent-shaped dune, called the Walls of China, stretches along the eastern shore of the lakebed. These dunes, of mud and sand, are continually eroding by wind and water. Left behind is a fragile landscape of crinkled, fluted outcrops and shifting sand, which changes colour from a daytime khaki to the vibrant yellows, oranges, and deep wine reds of sun set.

Stone flake tools are scattered across the landscape, and peeking out of the mud are ancient wombat holes, fossilized chunks of Eucalyptus trees, and the bones of long-dead marsupials, including extinct buffalo-sized wombats and giant kangaroos.

Flinders Ranges - Wilpena Pound - Aerial flight available

**Day 3** – We tour the Mungo Lake circuit and meet our Aboriginal guide for a local view of Mungo life. After lunch we head for Menindee lake via Pooncarie, following Australia largest river, the Darling. These lakes are now filling with water from recent rains, and attracting amazing birdlife and new plant life as the desert blossoms. We enter the Kinchega National Park, home of the Menindee Lakes and enjoy some great photos opportunities of this unique environment. Afternoon arrive Broken Hill for local sites, art centres (mine tour option), and Silverton at sunset. Silverton has a variety of 19th-century buildings, some restored as museums and art galleries. The town has attracted film-makers for decades with the circa 1880 Silverton Hotel and surrounds being used for Australian productions such as "Mad Max 2", "A Town Like Alice" and "Dirty Deeds". The dramatic natural scenery and changes of light and colour have also made the area popular with artists and many of the so-called Brushmen of the Bush paint and sell their art in Silverton. This evening explore the silver city of Broken Hill. BLD

**Day 4** - Depart Broken Hill to visit the **Sculptures in the Desert** display before we cross the border into **South Australia**. We travel saltbush desert areas then wheat and wool country via historic **Burra**, and on to the remote rural and railway junction town of **Peterborough**. Enjoy the spectacular scenery of the **Flinders Ranges** before an optional sunset scenic flight over **Wilpena Pound** (20 mins \$145) before some great outback hospitality and a hearty meal in the Wilpena Pound Resort.
