

## Information for tours – Accommodated tours

### Recommended Gear You bring

Recommended gear includes the essential hat with brim, sleeved shirts (for sun protection), sunscreen, sunglasses, camera, water bottle, walking shoes or boots, raincoat (or poncho), extra clothes, jacket/sweater (cool nights), toiletries.

Washing machines and Laundry facilities are available every few days on most tours

If doing a flight to improve photography, wear a black shirt which reduces reflection on aircraft windows.

Some stops will be in a towns or communities, so allow funds for personal spending eg snacks, art, film, souvenirs, extended or extra flights.

Please ask if you have any questions. Due to the need to be self sufficient, and to carry considerable gear, clients are required to restrict **personal luggage** to 1 soft bag, maximum weight **12 kg**, and maximum size same as domestic aircraft ie 48cm (19in) + 34cm (13in) +23cm (9in) = 105 cm maximum all round and 1 **small day pack** to be carried in the vehicle (for personal items, water, camera, snacks). Bags should be waterproof.

If you have any questions at any time, please ask

Thank you
